

CHILD DECIDES AGAINST MOTHER

Little Rosa Costabile, Aged Ten, About Whom Rich Contractor and His Wife Dispute, Tells Court She Prefers Father.

IS WELL CARED FOR IN CONVENT SCHOOL.

Mrs. Costabile Previously Given Custody of the Child, but Later Says She Sought Refuge with Her Father.

Justice Levintritt practically left the determination of the dispute between Luigi Costabile, of No. 318 East One Hundred and Twelfth street, "Little Italy's" richest contractor, and Maria Gerarda Costabile, his wife, over the custody of their ten-year-old child to that small, chubby young lady herself in the Supreme Court to-day.

The affidavits presented by C. G. F. Wahl and Irving C. Fox for the contending pair were completely contradictory. Mrs. Costabile declared that Rosa was detained on Aug. 30 last, when she made her regular Sunday visit to her father, under the order of Justice Davis dated in March, 1903, and that the mother had been unable to find out where she was hidden, and when she asked the father he struck her.

Costabile retorted that it was Aug. 30, 1903—not last, August—that the child came to him. That after her visit she was sent back to her mother as usual, but returned to him and refused to go again to her mother. Then he put her in the convent school of St. Catherine, Madison avenue and Eighty-second street, and that Mrs. Costabile had never taken interest enough in the child to inquire about her. Indeed, Costabile alleged, when he tried to restore Rosa to her mother a week after the child ran away to him, he found she had moved away and he had known nothing of her whereabouts until last March, when she called on him, not to ask about Rosa, but to get his signature to some papers. She had inherited property in Italy from her father, and under Italian law could not transfer it without her husband's signature. Luigi said he refused to sign the papers, and that this was the reason for the present action.

Mrs. Cecilia Sulzberg, of No. 309 East One Hundred and Twelfth street, registered at the Hotel Hamilton, No. 100 West Street, and other neighbors described the husband's affidavit. "Your Honor, here is the child herself," said Mr. Wahl. "She comes direct from the convent. I have not spoken to her. Let her decide. She seems very bright. I am willing to have her examined in open court. We have no objection to what we have not voluntarily disobeyed on order of the Court and should not be punished for contempt. Let the little child decide."

ARRESTED AT A CHRISTENING

Thieves Had Robbed the Flat of Tom Lloyd, in Harlem, Testing the Silverware While in the Apartment.

When word reached the East One Hundred and Twenty-sixth street police station yesterday that the flat of Tom Lloyd, a Harlem sporting man, had been robbed there was unhesitating activity. As a result John Wesley, alias Charles Hall, and Edward and Albert Schaeffer, brothers, were arraigned in Harlem Police Court to-day charged with the robbery. Wesley and Edward Schaeffer were held in \$2,000 bail for examination next Wednesday.

Lloyd lives in an apartment in the house at No. 324 Lexington avenue. He went to Philadelphia Saturday night to see Tommy Murphy, the Harlem pugilist, take a lesson in boxing from one Abe Attell. His wife went to a party and did not get home until midnight.

She found that the door of the flat had been forced with a jimmy and that silverware and clothing to the value of \$1,000 had been stolen. The thieves tested out silverware in the house, leaving behind that which did not assay up to their standard.

When Lloyd got home he reported the robbery to Capt. Burns, who assigned Detectives Teeven and Sullivan to the case. They got information that led them to a billiard room conducted by the Schaeffer brothers, in Third avenue near One Hundred and Twenty-fifth street.

From there they went to No. 2711 Eighth avenue, where there was a large party gathered to take part in a christening. John Wesley was to have been godfather of the child. The detectives nabbed Wesley just as he was about to take the child in his arms and play out his part.

After arresting Wesley the detectives placed the Schaeffer brothers in custody. Edward Schaeffer had twenty-five packets in his pocket, showing that he had pledged a great deal of silverware and clothing lately. Albert Schaeffer was arrested on suspicion, but nothing could be gathered against him. Teeven and Sullivan say that they will recover the stuff stolen from the Lloyd flat in a day or two.

DR. FLOWER, HIDING IN MEXICO, WANTS TO SETTLE WITH DUPES

Mrs. DELABARRE.

Mrs. Francis F. Hagaman-Delabarre, the \$1,000,000 dupe of Dr. Richard C. Flower, has just returned from an arranged meeting in Juarez, Mexico, with the fugitive mining promoter, at which he took steps to make at least partial restitution by giving her counsel, Alexander C. Macnulty, of No. 235 Broadway, power of attorney to wind up the affairs of the Sunset Mining Company, in which Mrs. Delabarre sunk alone \$175,000 gold at Dr. Flower's solicitation. In order to secure funds for the trip Mrs. Hagaman-Delabarre pledged her \$25,000 pearl and diamond necklace, which was stolen from her a few years ago at the Crossman House, Alexandria Bay, N. Y., and was later found in the hotel in the apartments of Mrs. Rachel Robinson, wife of L. L. Robinson, a wealthy manufacturer of mirrors in this city.

Dr. Flower, after his flight from New York, forfeiting \$23,000 bail on five indictments for grand larceny, went to a Central American Republic which is a haven for fugitives from the laws of the United States. From there he sent an invitation to Mrs. Hagaman-Delabarre last fall to send a representative to meet him at Juarez, which is just across the Rio Grande from El Paso, Tex.

Dr. Flower met Mr. Macnulty on Dec. 23 at Juarez in the office of Felipe Seljas, counsel for the Mexican Central Railway. He wore a beard and was otherwise disguised. After an hour's conference Dr. Flower signed the power of attorney, and then made sensational disclosures regarding men with whom he was formerly associated in mining schemes. As an evidence of good faith he turned over documentary proof of his statements, which is now in the possession of Mr. Macnulty.

Denied that She Was Present. Mr. Macnulty when seen at his office to-day was greatly surprised that The Evening World was in possession of the facts of his visit to Mexico with his client. He explained without hesitation the negotiations between Dr. Flower and himself as Hagaman-Delabarre's representative, but denied that his client was present at the meeting at Juarez.

Dr. Flower's disappearance from New York was discovered May 24, 1904, when his case was called before Recorder Goff. Five grand larceny indictments had been found against him in connection with the affairs of the Lone Pine Mining Company, in which he had sunk in one transaction \$200,000 of Mrs. Hagaman-Delabarre's money. Rather than face trial Dr. Flower fled, and the indictments which were found on the evidence of dupes other than Mrs. Hagaman-Delabarre still hang over his head.

Dr. Flower, a man of three professions, had induced Mrs. Cornelia Storrs, widow of Deputy Comptroller Storrs, to go upon his bond for \$25,000, which was forfeited. His remarkable success with women investors is shown by the attitude of Mrs. Storrs, who paid up with a smile, although she had previously lost \$300,000 in his various mining schemes.

Expects to Regain Wealth. "Although Mrs. Hagaman-Delabarre invested nearly \$1,000,000 in the Flower mining enterprises," said Mr. Macnulty to an Evening World reporter, "I am satisfied, as the result of our trips to Mexico, she will in a short time be a very wealthy woman again. Dr. Flower is suffering from kidney trouble. He fears an early, sudden death, and apparently desires to make restitution. 'The Sun' is a sincere silver property bought by Dr. Flower from Mexican people. All of this purchase money was supplied by Mrs. Hagaman-Delabarre."

Muc-Tone, as its very name implies, cures by toning the Mucous Tissues and restoring the membrane to its natural healthy state. Mr. Cosden believes a medicine such as Muc-Tone, which is carefully and scientifically prepared for one particular purpose, is to be depended on against a great many others that claim to cure a host of diseases. This besides all this, he says their customers day after day tell them it has cured them, and they recommend it to others.

Trial bottles may be had for fifty cents. If you buy now the Riker Drug Stores will guarantee a cure or refund the money you pay them. Riker Drug Stores, 6th ave. and 23d st., Broadway and 9th st., Haganman & Co., 200 Broadway, and its branches: J. Jungmann, 1020 Third ave. and 428 Columbus ave.; Kinsman's Drug Stores, 125th st. and 8th ave., 601 Eighth ave.; Eugene Hartnett, Jersey City, N. J.; Petty's Pharmacy, Newark, N. J.

DR. FLOWER.

It was equipped by Dr. Flower with machinery, and the building of a forty-mile roadway from the mines to the railway started. All of the money for this work was supplied by Mrs. Hagaman-Delabarre. Hence her equity in the property. The company is incorporated under the Mexican laws for \$75,000.

Had to Return to New York. "Owing to the Mexican laws, however, I was unable to attach the mines without some documentary evidence that Mrs. Hagaman-Delabarre's money had effected its purchase and had been used in its development."

"Imagine my surprise in reaching New York at finding in my mail a letter from Dr. Flower, who had been hiding in a haven south of Mexico where all Americans 'who are wise' go for rest and seclusion. The doctor expressed himself as desirous of doing Mrs. Hagaman-Delabarre full justice. After a good deal of quibbling in subsequent communications which passed between us, he consented to meet me at Juarez, Mexico, which is just across the Rio Grande River from El Paso, Tex."

"Entering the notary's office, I saw a man whom I did not recognize arise from a chair and come toward me. He said:

"'Hello, Macnulty.' His Disguise Is Complete. "But for the sound of his voice I would never have admitted it was Dr. Flower. He was so changed. It was impossible to penetrate his disguise. He was not garbed as a priest. Why, his disguise was so complete that he might travel the length and breadth of the United States without the slightest fear of detection. His precise disguise I will not reveal."

Dr. Flower appeared worn and haggard. He had aged considerably since he left New York.

"Macnulty, I want to right some of the wrongs I have done before I die," he said, "so I am going to clear away."

Dr. Flower appeared worn and haggard. He had aged considerably since he left New York.

"It does not appear to me," said Mr. A. H. Cosden, of the Riker Drug Store, to a World reporter, "that one-tenth of the people realize what a terrible thing Catarrh is. Every one knows how unsightly a disease eczema or scrofula is. Even the name, scrofula, is enough to make one shudder at the thought of it. Well, Catarrh is just an internal scrofula. The trouble is people don't see it and are inclined to let it go from bad to worse before doing anything. Catarrh, or internal scrofula, is really an eczema of the mucous membrane or lining of the nasal passages, bronchial tubes, the stomach, the lungs, liver or kidneys—in fact, it does not confine its ravages to any particular part of the system, but attacks the weakest parts first."

Plenty of remedies may be had that afford temporary relief, but Mr. Cosden says Riker Muc-Tone is the only one they know of that really cures. Muc-Tone works exactly opposite to all the cures that have been offered before. Muc-Tone does not benumb the inflamed surfaces as snuffs, powders, vaporizers and inhalations do, and then when the numbness works off leaves you worse than ever.

Muc-Tone, as its very name implies, cures by toning the Mucous Tissues and restoring the membrane to its natural healthy state. Mr. Cosden believes a medicine such as Muc-Tone, which is carefully and scientifically prepared for one particular purpose, is to be depended on against a great many others that claim to cure a host of diseases. This besides all this, he says their customers day after day tell them it has cured them, and they recommend it to others.

Trial bottles may be had for fifty cents. If you buy now the Riker Drug Stores will guarantee a cure or refund the money you pay them. Riker Drug Stores, 6th ave. and 23d st., Broadway and 9th st., Haganman & Co., 200 Broadway, and its branches: J. Jungmann, 1020 Third ave. and 428 Columbus ave.; Kinsman's Drug Stores, 125th st. and 8th ave., 601 Eighth ave.; Eugene Hartnett, Jersey City, N. J.; Petty's Pharmacy, Newark, N. J.

ARRESTED FOR BANK SWINDLES

Police Get Long-Sought-For Philip McIntyre as He Lands on Saturday from the Steamship Monterey.

WANTED BY TWENTY DEFRAUDED BANKS.

Officials of Bank of the City of Mexico Caused His Apprehension, Alleging that He Got \$800 from Them Fraudulently

In the arrest of Philip McIntyre, a fine looking man of thirty-five, who was nabbed as he was leaving the steamship Monterey, on Saturday, by Detectives Murphy and Funston, the police got a man for whom the Pinkerton Agency has been looking for several weeks. McIntyre was arrested at the request of the authorities of Mexico on a charge of swindling the Bank of the City of Mexico out of \$800. Before he went to Mexico some weeks ago McIntyre is alleged to have swindled some twenty banks in the West and South and it was at the request of the American Bankers' Association that the Pinkertons have been after McIntyre.

McIntyre is a man of excellent address. He is well-educated and talks several languages. In August last he went to Butte, Mont., and introduced himself as the former prospector of El Paso, Texas, but then a resident of Lafayette, Tenn., where he was the President of a big coal company. He bore all kinds of credentials and was well received, being introduced into the best clubs. According to the Pinkertons he finally landed a draft for \$200 on the firm of W. A. Clark & Brother, and got away with the money.

With letters recommending him to various people, written on the stationery of the Supreme Court of Tennessee, McIntyre went from place to place, and during September, October and November he is said to have got sums ranging from \$100 to \$250 from these banks: The First National Bank of Everett, Wash.; the Central National Bank of Kalamazoo, Mich.; the South Omaha National Bank, the First National Bank of Douglas, Ore.; the First National Bank of Astoria, Ore.; the First National Bank of Redwood, Ore.; the First National Bank of Baker City, Ore.; the First National Bank of Norfolk, Va.; the First National Bank of Birmingham, N. C.; the American National Bank of Deadwood, S. Dak.

When McIntyre was arraigned in the Tombs on Saturday he was dressed in a less than princely attire and showed not the least perturbation. The Pinkerton Agency put in a claim for him, and said that the United States needed McIntyre more than Mexico did. Magistrate Pool turned the prisoner over to a Deputy United States Marshal, who will later arraign him before Commissioner Shields.

Will Never Be Captured. "Not only does Dr. Flower go armed, but he showed me a small pistol containing poison which he carries for an emergency. Judging from his appearance, I do not think the doctor needs have made such careful preparations—he is physically in a very bad way. It will not be necessary for me to confer again with him. I understand that he has returned to his hiding place, where he informed me he was engaged in a venture which would prove sufficiently profitable for him to make still further restitution to my client."

REPORTED FIRE ON AN INCOMING SHIP.

On the strength of a rumor that the Austrian steamer Augustus was on fire off Navesink on her way to this harbor, the Department of the city sent the fire-boat New York down the bay.

The ship was sighted off Navesink, a blaze appearing under the bridge. The ship was merely being burned out by the crew. The ship is in good condition.

Indigestion?

Offer all Stomach Sufferers a Full Dollar's Worth of My Remedy It is to Try

I can afford to offer a full dollar's worth free because mine is no ordinary remedy. Ordinary remedies treat symptoms. My remedy treats the cause that produces the symptoms. Symptom treatment must be kept up forever—as long as the cause is there. My treatment may be stopped as soon as it has removed the cause, for that is always the end of trouble.

Stomach trouble is not really a sickness but a symptom. It is a symptom that a certain set of nerves is ailing. As the voluntary muscles that enable you to walk and talk and act—the automatic stomach nerves over which you have no control—I have not room here to explain how these nerves may be reached and controlled and vitalized and made well by a remedy I spent thirty years in perfecting—low known by Druggists everywhere as Dr. Shoop's Restorative. I have not room to explain how this remedy, by removing the cause, puts a certain end to indigestion, belching, heartburn, insomnia, nervousness, dizziness. All of these things are fully explained in the book I will send you when you write.

In more than a million homes my remedy is known. It has cured stomach troubles—indigestion, heartburn, nervousness, dizziness, and all the other troubles that may have delayed or troubled you. I make this offer to you, a stranger, for every possible reason for doubt, may be removed. Send me no money—make me promise—like no trial. Simply write and ask. If you have not tried my remedy, I will send you an order on your druggist for a full dollar's worth—not a sample, but the regular standard bottle he keeps constantly on his shelves. The druggist will require no conditions. He will accept my order as cheerfully as though your dollar laid before him. He will send the bill to me.

Will you accept this opportunity to learn at my expense absolutely how to be rid forever of all forms of stomach trouble—so be rid not only of the trouble, but of the very cause which produces it? Write to-day. For a free order for book 1 see Druggist. A full dollar's worth of Book 2 on the Heart, Book 3 on the Kidneys, Book 4 on the Liver, Book 5 on the Stomach, Book 6 on the Bowels, Book 7 on the Bladder, Book 8 on the Prostate, Book 9 on the Uterus, Book 10 on the Vagina, Book 11 on the Ovaries, Book 12 on the Fallopian Tubes, Book 13 on the Cervix, Book 14 on the Vagina, Book 15 on the Uterus, Book 16 on the Ovaries, Book 17 on the Fallopian Tubes, Book 18 on the Cervix, Book 19 on the Vagina, Book 20 on the Uterus, Book 21 on the Ovaries, Book 22 on the Fallopian Tubes, Book 23 on the Cervix, Book 24 on the Vagina, Book 25 on
